FRUIT TREES

—and—

GRAPE VINES

1923-1924

Price List

New Location Fruit Tree Department
MODESTO, CALIFORNIA

CALIFORNIA NURSERY CO.

Founded in 1865 by John Rock

GEO. C. ROEDING, President

Information for Purchasers

ANNOUNCEMENT:

FRUIT TREE DEPARTMENT

In order to facilitate the handling of our Fruit Tree business we have moved this department to Modesto, Stanislaus County, California. All correspondence and remittances pertaining to the Fruit Tree Department should be directed to this address.

The location of our growing plants are Loomis, Placer County, California, and Modesto, Stanislaus County, California.

ORNAMENTALS FOR RETAIL TRADE

PRICES:

All prices quoted in this list are for stock at Modesto. Freight and Express charges are to be paid by purchasers. Prices in this list supersede all others and these prices are subject to change without notice.

QUANTITY RATES.

Stock in this list will be furnished as follows:

- 5 of a variety at the 10 rate.
- 50 of a variety at the 100 rate.
- 300 of a variety at the 1000 rate.

ERRORS:

Errors or complaints must be reported within ten days after receipt of the stock.

PACKING CHARGES:

We charge for same only to cover the cost of material used.

TERMS AND REMITTANCES:

All of our stock is sold for cash, unless other arrangements are made. Remittances can be made to us by Post Office or Express money order, bank draft, or by personal check.

On all orders placed in advance we ask that a 20 per cent deposit be forwarded with the order and we will then reserve the stock for shipment.

ROOT SYSTEM:

It is a recognized fact that a proper root system is just as essential for a good orchard as selected buds, and with this in view we are striving to produce trees with well developed roots as well as exercising the utmost care in selecting our buds and scions. For instance, our peach seedlings are grown from seeds taken from trees 40 and 45 years old and still healthy, bearing fruit in Northern California. These trees were seedlings shipped here from the Eastern States in the early days. This with the care we exercise in selecting our buds from record bearing trees will assure good healthy trees.

GUARANTEE:

The California Nursery Company will exercise care to have all stock true to name, nevertheless it is understood and agreed that should any stock prove untrue to name, the California Nursery Company shall be liable only for the sum paid for the stock which may prove untrue, and shall not be liable for any greater amount. All communications should be addressed to the

California Nursery Company

H AND FIRST STREETS

MODESTO, CALIF.

DECIDUOUS FRUITS

All of our fruit trees are graded by caliper rather than by height. By doing this we are able to give our customers a more uniform grade of trees than by the old method of grading. Trees graded by caliper, when planted in orchard form and cut back, will be of uniform size and much more satisfactory to the planter. The following is the basis of size and caliper measurements for deciduous trees with the exception of Figs, Walnuts and Almonds:

- 6 to 8 grade trees to caliper not less than $\frac{3}{4}$ inch.
- 4 to 6 grade trees to caliper not less than $\frac{1}{2}$ inch.
- 3 to 4 grade trees to caliper not less than $\frac{3}{8}$ inch.
- 2 to 3 grade trees to caliper not less than $\frac{1}{4}$ inch.
- 1 to 2 grade trees to caliper not less than $\frac{3}{16}$ inch.
